

48-core fiber optic distribution box OEM

Overview

The HTB8048 Fiber Optic Terminal Box is a versatile, high-capacity termination solution for FTTx applications, offering secure fiber splicing, distribution, and cable management. 48 Port Fiber Distribution Box provides 16, 24, 32 or 48 SC ports in a traditional two-layer design – a rear splice area for cable slack and splice protection, and a front interconnect area for SC ports. With the function of the mechanical splice, fusion splice, light splitting. FTTH Terminal Box by Maplearashi offers 48 core capacity, pole or wall mount, and 12-month warranty. Ideal for fiber optic distribution with LGX Splitter. Optical cables can be lead in/out from upsite or downsite. Adapters plate is selectable and splicing tray is removable and suitable for field operation and maintenance of up to 24 splices (heat).
