

60-core optical cable manufacturer s price quote

AI Overview

The price for a 60-core optical fiber cable typically ranges from \$0.30 to \$6.50 per meter depending on type, jacket, and armor, with bulk orders often eligible for manufacturer discounts. Price Range and Factors Single-mode (OS2) cables generally cost \$0.09 to \$1.52 per foot, while multimode (OM3/OM4) cables range from \$1.50 to \$6.00 per foot. Armored cables or those with LSZH jackets can increase the price to \$1.15–\$6.50 per meter due to added protection and safety standards. Material quality (premium glass like Corning vs generic) and manufacturing standards significantly affect pricing, with higher-quality fibers reducing signal loss over long distances. Manufacturer Options Zion Communication offers 30, 40, and 60-core G.652.D ADSS optical fiber cables with double jacket PE sheath at competitive prices directly from China. Hongan Group provides 60-core duct armored stranded fiber optic cables (GYTS) with high production quality and fast response to inquiries. Alibaba suppliers list multiple 60-core outdoor fiber optic cables with competitive rates, suitable for bulk procurement. Recommendations Contact manufacturers directly for a customized quote, especially if you require armored, LSZH, or pre-terminated cables, as volume discounts and cable customization can significantly reduce total project costs. Verify specifications such as fiber type, jacket material, and environmental rating to ensure compatibility with your project requirements. Consider total cost of ownership, including installation and potential maintenance, as cheaper cables may incur higher troubleshooting costs if quality is compromised. For an accurate quote, it is best to submit an inquiry to the manufacturer with your required cable length, type, and any special features. This ensures you receive a precise price tailored to your project.
