

Aluminum Alloy Fiber Optic Cable Ladder

Overview

Aluminum Cable Ladder Made of high-strength aluminum alloy material, it not only ensures structural robustness and durability but also has excellent oxidation resistance and good thermal conductivity, which helps in cable heat dissipation. Cable ladders are suitable for horizontal, vertical, and multi-layer separated wiring places. Typically made. Aluminum cable ladder are widely used in data center cabling, offering aesthetically pleasing and easily manageable cabling. They can be installed in various ways, including ceiling mounting, wall mounting, rack top mounting, and under anti-static flooring, allowing users to choose the most. We're a professional manufacturer specializing in Ladder Type Cable Tray for many years. As well as having lightweight material properties, aluminium is very resistant to a lot of corrosive elements. straight section: standard width comes in 100, 150, 300, 450, 600. LongXing supply various cable ladders, which includes light duty aluminum cable ladder, flat steel cable ladder and Ericsson type cable ladder for small base station and data center, also heavy duty aluminum cable ladder, perforated U shape steel cable ladder, half closed cable ladder etc.
