

Bangladesh Stainless Steel Explosion-proof Distribution Box

Overview

BX52 Stainless Steel Explosion-Proof Corrosion-Resistant Distribution Box safely distributes and controls electrical power in harsh and hazardous environments. An essential electrical component for properly distributing electricity to lighting systems in dangerous areas with explosive gasses, vapors, or combustible dust is the Explosion Proof Lighting Distribution Box. It is extensively utilized in sectors where stringent safety regulations are. This series of products have good explosion-proof function, suitable for IIA, IIB, IIC explosive gas environment and various flammable and explosive sites, mainly used in railway, power, metallurgy, petroleum, petrochemical, chemical, iron and steel, aviation, ships and various factory areas. Modular Explosion-Proof Distribution Panels are specialized electrical apparatus designed for hazardous environments—such as those in the petroleum, chemical, pharmaceutical, and defense industries—where explosive gases or dust may be present.
