

Belgian concealed electrical box

AI Overview

Concealed electrical boxes in Belgium are available as custom-made technical cabinets or standard enclosures, designed to safely house electrical panels while blending seamlessly into interiors.

Types of Concealed Electrical Boxes

- 1. Custom Technical Cabinets:** These are bespoke cabinets that hide electrical panels, meters, modems, or water softeners behind stylish doors, making them nearly invisible in a room. They can be integrated into a full wall of cabinetry and are available in various materials such as MDF, painted finishes, or wood veneers. Many suppliers offer 3D design tools to visualize and customize the cabinet layout, color, and handles to match your interior design.
- 2. Standard Electrical Enclosures:** Manufacturers like Schneider Electric and GroupSumi provide ready-made enclosures in metal, plastic, or polyester. These can be wall-mounted or floor-standing and are designed to protect electrical equipment from dust, moisture, mechanical impacts, and environmental hazards. Insulating variants are available for outdoor or harsh conditions, ensuring compliance with safety standards.

Materials and Features

- Metal Enclosures:** Robust and durable, ideal for industrial or high-traffic areas.
- Plastic or Polyester Enclosures:** Lightweight, corrosion-resistant, and suitable for residential or indoor use.
- Insulating Boxes:** Provide extra protection against electrical discharges, extreme temperatures, and moisture.

Installation and Compliance

Concealed electrical boxes must comply with Belgian electrical safety standards. They are typically installed behind cabinet doors or within walls, allowing easy access for maintenance while keeping the installation hidden. Accessories such as mounting brackets, cable management systems, and thermal protection equipment can be added to ensure safe and efficient operation.

Where to Buy

- Schneider Electric Belgium:** Offers a wide range of enclosures and customization tools for industrial and residential applications.
- Maatkasten Online:** Specializes in bespoke technical cabinets.
