

# Blue Landmark Fiber Optic Cable Prices

## AI Overview

Blue Berk-Tek LANmark fiber optic cables typically range from \$0.25 to \$6 per foot depending on type, strand count, and installation requirements. Pricing Overview The cost of Blue Landmark fiber optic cables varies based on several factors including fiber type (single-mode vs multimode), strand count, jacket material, and whether the cable is pre-terminated or bulk. For standard LANmark-6 cables, which are ANSI/TIA/EIA Category 6 verified, prices generally fall within the following ranges: Multimode fiber (OM3/OM4): \$1.50 to \$6 per foot for high-performance data center or backbone applications. Single-mode fiber (OS2): \$0.30 to \$2.80 per meter ( $\approx$  \$0.09 to \$0.85 per foot) for standard installations. Bulk or wholesale purchases: \$0.09 to \$1.52 per foot depending on fiber count and cable type. Pre-terminated assemblies or patch cables: Higher costs due to factory termination and connectorization, often exceeding \$6 per foot for high-strand-count cables. Installation and Additional Costs The installation environment significantly affects total project costs. Indoor runs are generally less expensive, while underground or armored installations increase costs due to trenching, conduit, and protective ducting. Labor can account for 60–80% of total project costs, especially for fusion splicing and testing. Typical installation costs for small to medium projects range from \$2.00 to \$6.00 per foot in addition to the cable price. Factors Affecting Price Fiber Type: Single-mode supports longer distances but may require more expensive equipment; multimode is costlier per foot but suitable for shorter, high-speed runs. Strand Count: Higher strand counts increase material costs proportionally. For example, a 12-strand cable may cost around \$0.50 per foot, while a 24-strand cable can reach \$1.00 per foot. Jacket Material: Plenum-rated cables (CMP) for air-handling spaces are more expensive than standard CMR-rated cables. Armoring and Protection: Direct burial or armored cables add \$0.50 to \$5 per foot...
