

# Bulgarian fiber optic communication equipment for sale

## AI Overview

Bulgaria offers a wide range of fiber optic communication equipment, including cables, connectors, components, and complete system integration solutions from leading local suppliers. Key Suppliers and Products

**Opticom Ltd.** provides optical communication systems, consulting, design, splicing, testing, and damage localization services. They represent international brands like Sumitomo, EXFO, Trend Network, and Euroclust in Bulgaria, offering high-quality fiber optic components and testing equipment.

**CableCom Ltd.** specializes in structured cabling systems, fiber optics, and data communication equipment. They supply products from leading global manufacturers and provide system integration services for government, energy, and corporate clients.

**Tilcom Ltd.** offers a broad range of cables, cable accessories, optical cables, and electrical equipment. They have over 20 years of experience serving more than 2,500 client companies, providing both products and technical advice.

**Fibicon** focuses on high-quality fiber optic products for FTTH (Fiber to the Home), FTTA (Fiber to the Antenna), and data centers. Their product range includes fiber optic cables, connectors, and components designed for reliable network performance.

**ITA Group Bulgaria** delivers end-to-end fiber optic systems and integration services, including design for harsh environments, intelligent transport systems, and enterprise networking solutions. They also provide skilled professionals for system implementation and maintenance.

**Services and Capabilities**

Bulgarian suppliers not only provide equipment but also offer:

- Network design and feasibility studies for optical routes
- Installation, splicing, and testing of fiber optic lines
- Maintenance and troubleshooting of optical networks
- Training programs for fiber optic telecommunications

**Applications**

The products and services are suitable for: Tel...
