

CIF Price of 220V Battery Storage Cabinets Exported from Myanmar

AI Overview

The estimated CIF price for 220V battery storage cabinets exported from Myanmar is approximately 18% higher than the FOB price due to tariffs and additional fees. Estimating CIF Price: Myanmar energy storage cabinets are sold in bulk to verified buyers, but specific FOB prices vary depending on capacity, manufacturer, and order volume. For estimation, assume a typical FOB price of \$10,000 per shipment. Tariffs and Duties: For imports into the United States, batteries and energy storage products from Myanmar are subject to a total tariff rate of 18%, which includes the MFN base rate (3%) and Section 122 surcharge (15%) effective until July 24, 2026. This translates to \$1,800 in duties for a \$10,000 shipment. Additional Fees: Merchandise Processing Fee (MPF): Approximately \$36.72 Harbor Maintenance Fee (HMF): Approximately \$13.25 These fees are standard for ocean shipments. Total CIF Price: Adding tariffs and fees to the FOB price gives a total landed cost of around \$11,850-\$11,900 for a \$10,000 shipment. This represents an effective increase of 18-19% over the FOB price. Considerations for Export: Packaging and Handling: Energy storage cabinets must be packaged with shock-proof, moisture-proof, and wear-proof materials to prevent damage during transport. Customs Documentation: Clearly mark product name, weight, volume, and manufacturer on the packing case to facilitate customs clearance. Shipping Method: Ocean freight is commonly used for large shipments, but CIF prices will vary depending on port of destination, insurance coverage, and freight charges. Summary To calculate the CIF price for 220V battery storage cabinets exported from Myanmar: $\text{CIF Price} \approx \text{FOB Price} + 18\% \text{ (tariffs and fees)} + \text{shipping \& insurance costs}$. For example, a \$10,000 FOB shipment would have a CIF price of approximately \$11,850-\$11,900 when importing to the United S...
