

Cabinet Fiber Optic Fixing Clip

AI Overview

Fiber optic cable fixing clips are specialized holders designed to secure, organize, and protect fiber optic cables in cabinets, racks, and enclosures. Overview Fiber optic clips are essential for preventing cable movement, tangling, and damage in telecommunication cabinets, data centers, and industrial applications. They provide strain relief, protect fiber splices, and ensure reliable performance by keeping cables organized and secure. Types of Clips Clip-On or Adhesive Mount Clips Easy to install and remove. Can hold multiple cables of varying diameters (e.g., 2 mm, 3 mm, 3.9 mm, 4.5–6 mm) depending on the model. Suitable for cabinets, racks, and splice trays. Push Grip or Taper Lock Clips Designed for fire-safe installations, replacing plastic cleats. Support small cables like fiber optic, CCTV, and alarm cables. Comply with BS6701 A1:2017 and BS7671 18th Edition regulations. Right-Angle or Hammer-On Clips Made of steel for durability. Can be mounted on beams, flanges, or ceilings using nails, screws, or hammer-on methods. Often sold in bulk (e.g., 100 pcs per pack) for large installations. Fiber Brackets and Guides Provide organized mounting for multiple cables. Can hold splice protectors or WDMs. Available in low-profile designs to save space and allow modular expansion. Key Features Material: High-quality steel or fire-resistant metals for durability and compliance with safety standards. Capacity: Clips can hold from 1 up to 16 cables, depending on design. Installation: Options include adhesive pads, screws, clip-on, or push-fit systems. Some clips have side brackets to connect multiple units for additional cables. Cable Protection: Flexible wings or slots prevent fiber stress, tangling, or damage during installation and maintenance. Applications Telecommunication cabinets and racks Data centers and server rooms Industrial machinery and manufacturing environments Security and alarm systems Considerations for Selection Cable diameter: Ensure the clip matches the fiber optic cable size (common sizes: 0.9 mm, 2 mm, 3 mm, 3.9 mm, 4.5–6 mm)...
