

Cable Tray Laying in Jordan

AI Overview

Cable tray laying in Jordan follows international standards with structured layouts, proper support systems, and project-specific configurations to ensure safety, efficiency, and compliance. Overview of Cable Tray Systems in Jordan Cable trays are widely used in industrial, commercial, and infrastructure projects in Jordan to manage electrical, communication, and data cables efficiently. Leading suppliers and contractors, such as MASEICO, Legrand Jordan, and Davos Electrical Systems, provide a variety of cable trays including solid, perforated, and ladder types, along with accessories like bends, tees, risers, and junctions to accommodate complex layouts. Laying Scheme Principles Planning and Design: Create a detailed layout considering cable types, voltage levels, and routing paths. Ensure separation of power, communication, and data cables to prevent interference. Include future expansion in the design to allow additional cables without major modifications. Support and Mounting: Use wall brackets, ceiling hangers, trapeze supports, and strut rails to maintain stability and load distribution. Maintain recommended spacing between supports based on tray type and cable weight. Ensure proper alignment and leveling to avoid sagging or stress on cables. Routing and Accessories: Use bends (15°/30°/45°/90°), tees, vertical junctions, and end pieces to navigate obstacles and changes in direction. Employ interlocking systems or automatic couplers for quick assembly and secure connections. Maintain minimum bend radius for cables to prevent damage. Safety and Compliance: Follow IEC 61537 standards for cable tray systems, ensuring fire resistance and mechanical strength. Implement grounding and bonding for electrical safety. Adhere to local regulations and project-specific safety requirements. Examples of Implementation in Jordan Arab Potash Project: Replacement and installation of cable trays with full cable reinstatement and dressing, demonstrating structured planning, quality supervision, and adherence to safety st...
