

Cable tray hanger installation price

AI Overview

The installation price of cable tray hanger brackets typically ranges from \$10 to \$50 per bracket, depending on type, material, and installation complexity.

Factors Affecting Price

Bracket Type

- Stand-Off Brackets:** Used for mounting trays with clearance from walls; prices are moderate due to simpler design.
- G Hanger Support Brackets:** Designed for overhead support; slightly higher cost due to load-bearing requirements.
- Trapeze Support Brackets:** Pre-assembled for robust support; generally more expensive because of material and assembly.

Material

- Pre-galvanized Steel:** Affordable and durable, suitable for most indoor installations.
- Hot-dipped Galvanized Steel:** Higher corrosion resistance, ideal for industrial or outdoor use.
- Stainless Steel (A316/A4):** Most durable and corrosion-resistant, used in harsh environments; highest cost.

Installation Complexity

- Wall-mounted or ceiling-mounted brackets may require additional labor, increasing total cost.
- Pre-assembled brackets like trapeze supports reduce installation time but have higher upfront costs.

Estimated Costs

- Basic steel wall-mounted bracket: \$10–\$20 per unit including installation.
- Hot-dip galvanized or G-hanger bracket: \$20–\$35 per unit including installation.
- Stainless steel or trapeze support bracket: \$35–\$50 per unit including installation.

Additional Considerations

- Large-scale projects may benefit from bulk purchasing, reducing per-unit cost.
- Compliance with standards such as EN 61537 ensures safety and durability.
- Accessories like connectors, fasteners, and supports can add to the overall installation cost.

By considering the type, material, and installation environment, you can estimate the total cost for your cable tray hanger bracket installation and plan your budget effectively.
