

Cable tray manufacturer under the building

AI Overview

Leading cable tray manufacturers for under-building installations include MP Husky, ABB, Trayco, and EAE Electric, offering UL, CSA, and NEMA-compliant systems.

Key Manufacturers

MP Husky MP Husky is a major North American manufacturer of cable trays, wire mesh/basket trays, and cable bus systems. Their products are UL, CSA, and NEMA compliant, suitable for under-building installations in commercial, industrial, and nuclear environments. They provide engineered solutions for complex applications and emphasize reliability, cost-effectiveness, and long-term support.

ABB ABB produces a wide range of cable tray systems, including perforated trays, cable ladders, channel trays, and strut framing. Their systems are designed for medium to ultra-heavy-duty applications and are adaptable for various installation types, including under-floor or ceiling-mounted setups. ABB emphasizes durability, ease of maintenance, and flexibility for future cable modifications.

Trayco Trayco specializes in Belgian-manufactured cable trays, mesh trays, and cable ladders. They also provide mounting and floor systems, making them suitable for under-building installations. Trayco offers project-specific advice and customized solutions, ensuring proper material selection and installation guidance.

EAE Electric EAE Electric has been supplying busbar, cable trays, and support systems since 1973. Their products are suitable for industrial and commercial applications, including under-building cable management, and they provide fit-out solutions and support systems tailored to project requirements.

Additional Considerations

Compliance and Standards: Look for UL, CSA, or NEMA certifications to ensure safety and regulatory compliance.

Material and Load Capacity: Choose trays based on expected cable weight and environmental conditions (e.g., galvanized steel, stainless steel, or fiberglass).

Installation Type: La...
