

Cable trays for passageways

Overview

There are several types of cable trays, including ladder, perforated, solid bottom, basket, and channel trays. Proper installation, robust protection, and scheduled maintenance are non-negotiable for long-term structural and operational safety. This. Cable trays provide a support structure to lay out cables across hundreds of meters, without the likelihood of sagging or becoming tangled, or even getting in contact with the rough tunnel walls. This improves overall electrical cable organization in tunnels, making inspections and repairs. Are you looking for high-quality Cable Trays for improved cable management and organisation?

Look no further than our extensive range, featuring top brands such as our very own RS PRO, Cablofil International, Legrand, and StarTech. Each cable tray type performs a different function and comes in various materials such as aluminum, galvanized steel, and FRP.
