

Canadian Anti-corrosion Cable Tray Installation Manufacturer

AI Overview

Top Canadian providers of anti-corrosion cable tray systems include ABB, Niedax CER, Unitray, and Superior Tray Systems, all offering CSA-approved, durable solutions. ABB manufactures a wide range of cable tray systems, including perforated trays, cable ladders, channel trays, and strut metal framing, directly from Canadian production facilities. Their systems are designed to reduce moisture buildup and prevent cable insulation damage, making them suitable for anti-corrosion applications. ABB supports both new installations and refurbishments, offering medium to ultra-heavy-duty trays adaptable to evolving project needs.

Niedax CER Niedax Canadian Electrical Raceways (CER) has over 30 years of experience in the Canadian market. They provide CSA-approved cable ladders, trays, basket trays, channel trays, and wire mesh trays. CER emphasizes quality, innovation, and customer satisfaction, and can collaborate on custom solutions tailored to specific project requirements. Their products are designed for durability and safety, making them ideal for anti-corrosion and long-term installations.

Unitray Unitray specializes in aluminum cable trays, offering CSA-approved Class C, D, and E trays and fittings in standard lengths of 3m, 5m, and 6m. Their state-of-the-art manufacturing facility ensures high-quality, corrosion-resistant products suitable for industrial and commercial applications. Unitray maintains ISO certifications and robust health, safety, and environmental management systems, ensuring reliable and compliant installations.

Superior Tray Systems Superior Tray Systems Inc. provides custom-designed, high-quality cable tray systems that are CSA and UL certified. Their offerings include solutions for power, control, data, and telecom cables, with options like wire mesh trays for sensitive or fiber optic installations. Superior Tray S...
