

Category 6 48-port network patch panel

Overview

This 48-port universal 568A/B Category 6 rack mount patch panel is designed to take up a single rack space (1U), making it a compact and efficient solution for your network needs. The patch panel performance exceeds the TIA Category 6 Patch Panel Standards and supports data rates up to 10 Gbps. Ensure high-performance network connectivity with ICC's 48-Port CAT6 Patch Panel, designed for Gigabit Ethernet applications. Patch panels include patented Retention Force Technology which promotes consistent performance over the life of the system. It occupies two rack units, and measures 19" x 3". Jacks are grouped in six-port modules. Constructed from 16-gauge cold-rolled steel, this patch panel ensures durability and supports maximum speed and bandwidth. 2-1 and effectively double the bandwidth of standard Category 5e panels.
