

Commonly Used Cable Tray Brands on Construction Sites

AI Overview

Top cable tray brands for construction sites include Interflex, Legrand, Snake Tray, Atkore, and Thomas & Betts, offering durable, compliant, and versatile solutions for industrial and commercial projects.

Leading Cable Tray Brands

1. Interflex USA Interflex provides robust cable management solutions, including ventilated, perforated, and solid-bottom cable trays. Their products are designed for durability, adaptability, and compliance with safety codes, making them ideal for complex construction layouts and multi-family or commercial projects.

2. Legrand Legrand offers a wide range of cable trays, including Cablofil wire mesh trays, ladder trays, and troughs. Known for ease of installation, high load capacity, and global compliance, Legrand is widely used in data centers, industrial, and commercial construction.

3. Snake Tray Snake Tray specializes in hand-bendable aluminum and steel trays, reducing installation time and labor costs. Their products are stocked across the US, suitable for solar installations, transit systems, and data centers, and emphasize cost-effective, innovative cable management.

4. Atkore International Atkore manufactures UL-certified steel, aluminum, and fiberglass cable trays. Their systems are highly customizable, durable, and compliant with NEMA and UL standards, making them suitable for heavy-duty construction and industrial applications.

5. Thomas & Betts (ABB Group) Thomas & Betts provides ladder, perforated, and wire mesh trays with a focus on industrial, commercial, and residential electrical installations. Their products are known for reliability, long-term performance, and NEC compliance.

Material Considerations

Steel: Strong, durable, and suitable for heavy loads; often galvanized for corrosion resistance.

Aluminum: Lightweight, corrosion-resistant, ideal for outdoor or elevated installations.

Fiberglass...
