

Compatible QSFP Fiber Ethernet Switches

AI Overview

QSFP-compatible fiber Ethernet switches are available from Australian suppliers such as Fiber2c, Cloudtronics, KSM Solutions, and HPE, supporting QSFP28, QSFP-DD, and other high-speed modules.

Key Australian Suppliers

Fiber2c Fiber2c offers a wide range of optical transceivers and QSFP-compatible switches, including 100G QSFP28, 200G QSFP56, 400G QSFP-DD, and 800G QSFP-DD solutions. Their products are designed for data centers, telecom carriers, and enterprise networks, with full compatibility testing and 24/7 local technical support in Melbourne. They provide both general-purpose and tailored solutions, supporting multiple form factors and high-speed Ethernet standards.

Cloudtronics Cloudtronics supplies SFP, SFP+, and QSFP modules compatible with various Ethernet switches. They focus on fast, reliable network connectivity and offer modules suitable for 10G, 25G, 40G, and 100G QSFP ports. Their products are suitable for both enterprise and data center deployments.

KSM Solutions KSM Solutions provides fiber optic Ethernet switches capable of extending multiple Ethernet connections over long distances (up to 160 km). Their switches support SFP modules in single-mode, multimode, and full-duplex bidirectional formats, which can be integrated into multi-level or daisy-chained networks.

HPE FlexFabric 5900CP The HPE FlexFabric 5900CP-48XG-4QSFP+ switch is a high-density, ultra-low-latency ToR switch suitable for data center core or top-of-rack deployments. It supports QSFP+ modules and is compatible with HPE 3PAR storage solutions, FCoE, iSCSI, and NAS environments. HPE is a trusted supplier in Australia, offering enterprise-grade hardware with SDN and OpenFlow support.

Compatibility Considerations QSFP28 and QSFP-DD: Many modern switches support backward compatibility, allowing QSFP28 modules to operate in QSFP-DD or OSFP ports.

MSA Compliance: Modules that follow the Multi-Source Agreement (MSA) standards are generally interchangeable, but vendor-specific firmware checks may...
