

Congo Telecom Fiber Optic Cable Procurement

AI Overview

Congo offers multiple fiber optic procurement opportunities through government tenders, international development projects, and private sector initiatives, including supply, installation, and maintenance contracts. Current Fiber Optic Procurement Opportunities Several platforms list active tenders and procurement notices for fiber optic projects in Congo: GlobalTenders provides access to Congo telecommunication tenders, including fiber optic cable projects, satellite systems, and telecom equipment procurement. TendersGo lists construction and telecommunications tenders specifically for fiber optic cable laying across the Democratic Republic of Congo, including RFPs, RFQs, and bid notices. DrcongoTenders offers detailed listings of cable tenders, including projects like the fiber optic survey on the RN2, Mbanga-Lualaba River section (200 km) under the Transport and Connectivity Development Project (PDTC). Enabel has issued tenders for the supply, installation, and maintenance of fiber optic internet connections for offices in Kinshasa, reflecting international cooperation opportunities. Major Fiber Optic Projects Congo is actively expanding its interregional fiber optic network: The Central African Backbone (CAB) project aims to enhance digital inclusion and broadband connectivity across the CEMAC region. Congo's participation includes CAB 3 and CAB 4, connecting Gabon and Congo, inaugurated in April 2018. The Congo-Cameroon fiber optic link was completed in June 2021, with the underwater cable connecting Silicone Connect (Brazzaville) and United (Kinshasa) arriving in Brazzaville in June 2022. The CAB-RCA project in the Central African Republic entered operational phase in 2023, further integrating Congo into the regional digital infrastructure. Key Considerations for Procurement Eligibility: Suppliers, contractors, and manufacturers can participate in...
