

Custom Price of Galvanized Aluminum-Magnesium Cable Trays

AI Overview

The price of galvanized magnesium-aluminum cable trays typically ranges from \$16 to \$30 per piece for standard sizes, with variations depending on dimensions, thickness, and supplier. Galvanized magnesium-aluminum cable trays are coated with a zinc-aluminum-magnesium alloy, offering superior corrosion resistance and durability compared to traditional galvanized trays, making them ideal for outdoor or harsh industrial environments. Prices depend on factors such as tray height, width, thickness, and whether the tray is perforated, ladder-type, or solid-bottom.

Typical Pricing Examples

- Small coupler plates or short tray sections (e.g., 20/30 x 200 mm) are priced around ₹16 per piece in India.
- Medium-sized trays (e.g., 70 x 200 mm) can cost approximately ₹30 per piece.

International suppliers, such as Alibaba or specialized manufacturers, offer customized trays with prices varying based on length, thickness (0.7–2.5 mm), and surface treatment.

Factors Affecting Price

- Material Thickness:** Thicker trays (up to 2.5 mm) are more expensive due to higher material costs.
- Tray Type:** Ladder-type, perforated, or solid-bottom trays have different manufacturing costs.
- Coating Quality:** Zinc-aluminum-magnesium coatings provide self-healing corrosion protection, which can increase the price compared to standard galvanized trays.
- Order Quantity:** Bulk orders often reduce the per-piece cost, while small trial orders may incur additional shipping or customs fees.
- Supplier Location:** Prices vary by region due to shipping, taxes, and local market conditions.

Supplier Options

- Zhejiang Huikun Power Transmission:** Offers galvanized magnesium-aluminum trays with delivery in 7–20 days and technical support.
- M.G. Cable Industries (Mumbai, India):** Provides standard sizes with ex-stock delivery and GST applicable.
- Alibaba Suppliers:** Offer global shipping and customization for vario...
