

Data Center Liquid Cooling Cabinet Companies

AI Overview

Top liquid cooling cabinet brands include Rittal, Asetek, CoolIT Systems, LiquidStack, Green Revolution Cooling, Schneider Electric, and ToneCooling, offering solutions for high-density, AI, and hyperscale data centers. Leading Brands and Their Offerings

Rittal – A global IT infrastructure leader, Rittal integrates advanced liquid cooling into its enclosures, supporting direct-to-chip implementations and modular, scalable platforms for high-performance computing environments .

Asetek Inc. – Specializes in direct-to-chip and immersion cooling, providing patented solutions that reduce heat and power consumption for hyperscale and AI workloads .

CoolIT Systems – Offers custom direct liquid cooling technologies, optimized for high-density server racks, with close OEM collaboration for seamless integration .

LiquidStack – Originating from the cryptocurrency sector, LiquidStack delivers enterprise-grade direct-to-chip and immersion cooling solutions, particularly suited for AI and edge computing .

Green Revolution Cooling (GRC) – Veteran in single-phase immersion cooling, GRC simplifies facility design by eliminating raised floors and complex air handlers, reducing both capital and operational costs .

Schneider Electric – Provides integrated liquid cooling solutions as part of its data center infrastructure portfolio, supporting energy-efficient and scalable deployments .

ToneCooling – A Chinese manufacturer offering direct-to-chip cold plates for AI servers, supporting multiple GPU/CPU platforms, rapid prototyping, and high thermal performance with ISO-certified quality .

Additional Notable Brands

Alfa Laval – Heat exchanger and fluid handling expertise for large-scale liquid cooling deployments .

Airedale International – Modular liquid cooling systems for hyperscale and edge data centers .

Boyd Corporation – Thermal management solutions for high-density racks .

Dell, HPE, Fujit...

In shaping the future, OCP will continue to invest in strategic initiatives that prepare the IT ecosystem for major changes, such as AI & ML, optics, sustainable data

Top 10 Data Center Cooling Companies in the World 2026

This article highlights the top 10 data center cooling companies in the world, examining their technologies, strengths, and roles in enabling efficient, high-density, and sustainable data center

NVIDIA's smart servers run on 113°F coolant and slash data center ...

One of the world's leading technology companies, Nvidia, has just unveiled a new data center cooling system that uses a liquid coolant hotter than a hot tub to cut energy consumption. The ...

Top 10: Liquid Cooling Companies | Data Centre Magazine

In association with Mitsubishi Electric, Data Centre Magazine spotlights top liquid cooling companies developing sustainability-led solutions

Cushman & Wakefield | Commercial Real Estate

A global commercial real estate services leader, we will never settle for the world that's been built, but relentlessly drive it forward..

AI-driven cooling technologies for high-performance data centres:

By mapping trade-offs across performance, cost, and sustainability, this study offers actionable insights for data centre operators, designers, and policy stakeholders navigating the path

NVIDIA's new liquid-cooled data centers are running at an unexpected ...

Nvidia's DSX AI data centers are hosting its Rubin AI infrastructure, and they're not being cooled by conventional methods like fans or cold aisles.

AgileMod Containment DataCenter Solution for CPPA

Customer Challenges Inadequate access control and limited monitoring expose the facility to unauthorized entry and equipment damage. Messy cable routing leads to tangling, signal

Vertiv Prepares for Future of Air and Liquid Cooling,

The Vertiv CoolPhase Flex might well be the first packaged system to provide a seamless integration of liquid cooling and refrigerant-based air-cooling

Products

Delta presents an extensive array of air and liquid cooling products, delivering tailored solutions for enterprises, colocation facilities, hyperscale data centers, and HPC/AI workloads.

LiquidCool Solutions: Immersion-Cooled Rack Servers

Meet soaring compute demands efficiently with LiquidCool Solutions' versatile, immersion cooling for high-performance GPU dense servers. Perfect for data

Motivair by Schneider Electric | AI Liquid Cooling & Data

Motivair by Schneider Electric is a leading global provider of advanced liquid cooling solutions designed to meet the greatest thermal challenges of modern computing

32 Leading Data Center Liquid Cooling Companies

This comprehensive analysis highlights 32 leading data center liquid cooling companies, drawing on the latest market research report to help IT leaders,

IDC | Trusted Tech Intelligence

Navigate the changing tech landscape with IDC's trusted intelligence and insights from 11 billion data points.

Top 10 Most Innovative Data Centre Cooling Companies

We've compiled a list of 10 of the best cooling companies who are helping to innovate the data centre industry.

Data Center Liquid Cooling Companies

List of the top Data Center Liquid Cooling companies based on extensive research conducted by Mordor Intelligence analysts and expert advisors that identified these brands to be the leaders and major

Why liquid cooling will dominate AI data centres in 2026

As AI power demands surge into 2026, liquid cooling is becoming the essential technology keeping data centres efficient, stable, and future-ready.

Top 10: Liquid Cooling Companies | Data Centre Magazine

Discover the leading liquid cooling companies transforming data centre infrastructure with sustainable, high-performance thermal management solutions

32 Leading Data Center Liquid Cooling Companies

Conclusion: Secure Your Competitive Edge in the Liquid Cooling Market With data center heat loads and sustainability pressures mounting through 2030, selecting DCX Liquid Cooling Systems

We design and manufacture a full range of high-performance cooling systems dedicated to colocation, enterprise and hyperscale data centers, including

Top 10: Liquid Cooling Companies | Data Centre Magazine

Arguably more efficient than air cooling, new liquid cooling solutions are able to offer a significant solution for businesses looking to address

Top 10: Sustainable Data Centre Cooling Companies

This week we are spotlighting 10 companies that are pioneering liquid cooling technologies in data centres, including Schneider Electric, DCX,

Deploying liquid cooling in the data center

Adopting Liquid Cooling at Existing Data Centers The future of IT thermal management has arrived, and it's a hybrid of air and liquid cooling technologies. Enterprises are adopting high-performance
