

Distribution Network Automation Technology Report

Overview

Distribution Automation Market Size, Share, Trends, & Industry Analysis Report: By Type (Wired and Wireless), By Product, By Application, By Component, By End User, and By Region – Market Forecast, 2025–2034

Distribution Automation Market Size, Share, Trends, & Industry Analysis Report: By Type (Wired and Wireless), By Product, By Application, By Component, By End User, and By Region – Market Forecast, 2025–2034

The global distribution automation market size was estimated at USD 18,833. 4 million in 2024 and is projected to reach USD 41,721. The market growth is primarily driven by the increasing demand for reliable and uninterrupted power. The global distribution automation market was valued at USD 23 billion in 2025, reflecting accelerating capital deployment across grid digitalization programs in North America, Europe, and Asia Pacific. It enables real-time fault detection, service restoration, voltage regulation, and network optimization across utility grids. The distribution automation market is projected to grow from USD 19. 2% market share, while software will lead the components segment with a 38. The distribution automation market was valued at. Segments - by Hardware (Sensors, Smart Meters, Switches, Reclosers, and Others), Software (Distribution Management Systems, Outage Management Systems, Supervisory Control and Data Management Systems, and Others), Technology (Wired Communication and Wireless Communication), Application (Consulting.

Welcome to Channel Dive. We're Informa TechTarget's new publication, focused on delivering daily news and analysis for executives at North

PwC: Audit and assurance, consulting and tax services

With bold insights, proven expertise and tech that moves business forward, we help you drive your company to the leading edge.

Distribution Automation Market Report 2025

With the accelerating modernization of power networks, there is increasing potential for Distribution Automation Systems to integrate with smart grid technologies,

Distribution Automation Market Size, Share, Growth, 2034

North America dominated the distribution automation market with a market share of 36.8% in 2025. Distribution automation refers to the use of intelligent control, communication, and monitoring

Distribution Automation Market | Global Market Analysis

Overall, trends in automation, fault intelligence, and proactive control are expected to enhance network efficiency, reduce operational costs, and

Distribution Automation Market Size 2025 | Report 2034

Distribution automation (DA) refers to the integration of advanced technologies such as sensors, processors, communication networks, and

Distribution Automation Market Size, Share, Global Report 2034

The global distribution automation market research report offers an in-depth analysis of the industry. It further provides details on the adoption of distribution automation systems across

Cisco Networking Academy
