

Dubai SC fiber optic attenuator price

AI Overview

SC fiber optic attenuators in Dubai are available from around AED 30 to AED 120 depending on brand, attenuation level, and connector type. Price Overview

HYFIBER 7dB SC/UPC Single-Mode Attenuator (2-pack): Available on Noon for approximately AED 60–70 with delivery across Dubai and the UAE.

FLYPRO Fiber 7dB SC/UPC Single-Mode Attenuator (2-pack): Listed on Amazon.ae, prices are similar, around AED 65–75, with options for cash on delivery and free returns.

SC Fiber Optic Attenuators (1dB–30dB, UPC/APC, male/female or bulkhead): Local supplier FiberOptic.ae offers a wide range of attenuation levels with custom configurations; prices vary depending on dB rating and connector type, typically starting from AED 30 for low dB values.

SC Fixed Fiber Optic Attenuator (1–25dB, Male to Female, UPC): Optcore provides high-quality attenuators with factory pricing and a 5-year warranty; prices generally range from AED 40 to AED 120 depending on attenuation level.

SC/APC Singlemode Fixed Fiber Optic Attenuator (3dB, Male-Female): Treee.ae lists these for around AED 35–50, suitable for optical power calibration and signal attenuation in fiber networks.

Key Considerations

Attenuation Level: Prices increase with higher dB ratings; common increments are 1dB, 3dB, 5dB, 7dB, 10dB, up to 30dB.

Connector Type: SC/UPC and SC/APC are the most common; APC connectors are slightly more expensive due to angled polish for lower back reflection.

Quantity: Multi-packs (2-pack or more) often offer better value.

Shipping & Warranty: Most online retailers provide delivery across Dubai, with some offering free returns and warranty coverage. For purchasing, it is recommended to compare attenuation levels, connector types, and vendor reliability to ensure compatibility with your fiber optic network.
