

# Esat distribution box

## AI Overview

The eSat distribution box is a versatile electrical enclosure designed for safe indoor and outdoor use, providing reliable power distribution for charging stations and other electrical applications. Overview The eSat distribution box is part of the electrify eSat/eBox series, engineered for both indoor and outdoor environments. It is designed to house electrical components safely, ensuring protection against environmental factors such as moisture and temperature extremes, with an operational range from -25°C to 45°C. The enclosure is suitable for low-voltage installations and complies with relevant standards for electrical safety. Installation Requirements Qualified Personnel: Installation, commissioning, and maintenance must be performed by a qualified electrical company to ensure safety and compliance. Location: The box should be installed in areas free from flood risk, explosive atmospheres, and direct water jets. Adequate spacing from other technical installations is recommended for accessibility. Mounting Surface: The mounting surface must be strong enough to withstand mechanical loads. A foundation or mounting frame is recommended for stability. Electrical Compliance: Low-voltage installations must follow IEC 60364-1 and IEC 60364-5-52 standards. The power supply must be properly dimensioned to match the box's capacity. Design and Features Robust Construction: The eSat box uses durable materials to ensure long service life and high safety levels. Ease of Connection: The design includes cross-divided inlet and outlet openings and strain relief clamps to simplify wiring and reduce connection time by up to 50%. Component Access: Covers over fuses, meters, and switching gear can be removed independently, allowing safe maintenance without exposing other components. Versatility: Suitable for charging infrastructure, public power distribution, and industrial applications, the box can accommodate various electrical components, including fuses, circuit breakers, and monitoring dev...
