

Ethiopia Power Distribution Box

AI Overview

Key companies in Ethiopia supplying or manufacturing power distribution boxes include Alphapower Electrical Technology, Sigma Engineering PLC, and MKAK Trading PLC. Leading Manufacturers and Suppliers Alphapower Electrical Technology PLC (AET) is a prominent Ethiopian manufacturer specializing in electrical distribution and transmission equipment. They design and produce high-quality distribution boxes, fuse boxes, and other electrical components, with a focus on expanding manufacturing capabilities across Africa. Sigma Engineering PLC, part of the Sigma Electric PLC Group, provides comprehensive electrical solutions including manufacturing and installation of distribution boards, compact substations, and MV equipment. They also supply power generators and power factor correction units, offering both products and engineering services. MKAK Trading PLC is a wholesale distributor of industrial electrical equipment in Ethiopia. They supply a wide range of electrical materials and distribution components suitable for both residential and large-scale wiring projects. Project-Specific Suppliers For utility and infrastructure projects, companies like DGG Power have supplied distribution boxes and lightning arresters for power distribution renovation projects in multiple Ethiopian towns. Their products meet local power company standards and are designed for cost-effective, reliable performance. Additional Resources A broader list of verified electricity suppliers in Ethiopia, including those providing distribution boxes, can be found on platforms like Ethyp.com, which lists over 80 suppliers with detailed business information. These companies collectively cover manufacturing, wholesale distribution, and project-specific supply, making them key contacts for anyone seeking power distribution boxes in Ethiopia.
