

Explosion-proof distribution box round door

Overview

These Ex certified enclosures are suitable for use in both gas and dust environments and are perfect for application in Zone 1, 2, 21, 22 environments. They are seawater resistant, and come with hinges that can also be attached on the side. Choose our explosion-proof solutions, choose safety. Safely conduct, connect and distribute energy in hazardous areas with R. Our products are certified for installation technologies all over the. Inatex is pleased to announce the release of the HRT97 Series IECEx explosion-proof LED floodlight, a high-performance hazardous area lighting solution designed for demanding industrial environments. The HRT97 Series is fully IECEx and ATEX certified and suitable for Zone 2 gas and Zone 21/22 dust.

- Flameproof enclosure (Ex db), which can be used as feed distribution equipment in control and distribution system (such as distribution box, switch box of main circuit, control box, terminal box or motor starting box etc.) Enclosure: 304 stainless steel, 316L stainless steel and Q235. Available with a wide range of built in components. Equipped with a specialised hinge structure which can prevent damage to the flameproof joints when opening and closing the box; greatly. ROSE supplies flameproof enclosures in various sizes and types for use in various gas groups and service-temperature ranges.
