

Fiber Optic Converter Dual-Fiber Multimode

Overview

Supports Dual Speed Fiber Mode (configurable by dip switch) – Select 1000Base-FX or 100Base-FX – interconnecting with existing fiber nodes is easy with this media converter. FREE UTP Cat5e Patch Cable (1m - 39in). Fiber media converters quietly solve a big, practical problem: they bridge copper Ethernet to fiber and extend links far beyond copper's reach. In real networks such as campuses, factories, metro POPs converters let you reuse existing switches and still run fiber for long distance, EMI immunity. FO media converters for Ethernet and fieldbus enable you to convert your copper interfaces to interference-free fiber optics without the need for complex surge protection, shielding, and equipotential bonding measures. Suitable for intelligent community, it extends the network transmission from 100m to 100Km. Also it can be realize. Complete Package: Includes 2 Gigabit Multi-Mode Fiber Ethernet SFP Slot media converters equipped with 2 SFP BiDi LC Dual Multi-Mode 850nm transceivers, 2 AC/DC power adapters, and a user manual. Wavelength – 1310nm, Use it with Multimode Fiber Only. We supply different single mode.
