

HPE optical-to-electrical SFP optical module

Overview

Each SFP transceiver module is individually tested to be used on a series of HPE switches, routers, servers, network interface card (NICs) etc. Featuring low power consumption, the hot swappable 1G SFP transceiver is ideal for Internet Service Provider (ISP) Gigabit. The following Active Optical Cable (AOC) products are offered by HPE Servers and Systems and ordered using the specified part number (these cables may not be available to order for Aruba-only partners). Refer to the HPE Compute transceiver and cable hardware matrix product availability matrix at. Gigabit SFP optical transceiver modules use LC connectors. Where support for a Revision A, B, or C transceiver existed, Revision D or E parts are also supported. Hewlett Packard Enterprise Optical transceivers offer improved performance and reliability, as well as compatibility with HPE storage and computing products.

Optical Modules for Huawei S Series Switches

An SFP+ optical module can interconnect with an XFP optical module. Two optical modules can interconnect with each other as long as their wavelengths, transmit power, and receive power meet

HPE 455883-B21 | SFP+ Transceiver Module | 10GBASE-SR

Overview The HPE 455883-B21 is a high-performance SFP+ optical transceiver designed for short-range 10 Gigabit Ethernet connectivity within the HPE BladeSystem c-Class ecosystem. This module

HPE CWDM-SFP10G-1550 10G CWDM SFP+ Transceiver Module

H3C compatible SFP+ transceiver supports up to 80km link lengths over single-mode fibre (SMF) via an LC duplex connector. This transceiver is compliant with SFF-8431 and SFF-8432 MSA standards.

HPE Optical Transceivers data sheet

HPE recommends using only HPE's high-quality Optical transceivers (SFPs) in HPE SAN environments. HPE transceivers are qualified to plug and play across the entire HPE SAN storage product family,
