

How much does a fire protection distribution box cost

AI Overview

Fire protection distribution boxes are available from \$50 to \$300+ depending on size, material, and features, with options for waterproof, fire-rated, and modular designs.

Overview of Pricing Fire protection distribution boxes vary in price based on material, size, and certification:

- Outdoor metal fire protection boxes** with waterproof and modular features typically range from \$150 to \$300 per unit, depending on the number of circuits and additional control panel integration.
- Plastic or ABS IP65 waterproof distribution boxes** suitable for 12-way DIN rail setups are available for around \$50 to \$100 per unit, offering basic fire protection and weather resistance.
- Customizable fire-rated enclosures** conforming to BS standards for extreme heat and hazardous areas may cost \$200+, reflecting their high-performance ceramic terminal blocks and fire survival ratings.

Key Features Affecting Price

- Material and Construction:** Metal enclosures provide superior durability and fire resistance, while ABS or plastic boxes are lighter and more cost-effective.
- Waterproofing and IP Rating:** IP65 or higher ensures protection against dust and moisture, which is critical for outdoor installations.
- Fire Resistance:** Certified enclosures (BS EN 50200, BS8434-2) can withstand temperatures up to 950°C, increasing cost but ensuring safety in fire scenarios.
- Modularity and Capacity:** Boxes with integrated control panels, multiple circuit breakers, or modular structures for easy installation are priced higher.
- Supplier and Customization:** OEM/ODM options from Chinese manufacturers allow bulk orders and custom specifications, which can affect unit pricing.
- Supplier Options** Chinese Manufacturers: Platforms like Made-in-China and Hogn Group offer competitive pricing and customization for bulk orders.
- Retail Options:** Amazon and other online retailers provide ready-to-ship units for smaller-scale projects, typically in the \$50-...
