

How much does a temperature-sensing optical cable cost in Malta

AI Overview

Temperature sensing optical cables in Malta range from around €20 for consumer sensor cables to several hundred euros for industrial fiber optic sensor cables.

Consumer-Level Options For smaller-scale or smart home applications, Shelly DS18B20 Smart Temperature Sensor Cables are available in Malta. A 3-meter cable can be purchased from Klikk Computers Malta, suitable for precise temperature measurements with Shelly Plus Add-ons, typically priced around €20–€30 depending on the retailer and promotions.

Industrial and Professional Fiber Optic Sensor Cables For industrial monitoring, fiber optic temperature sensing cables are used in harsh environments, including fire detection, pipelines, tunnels, and power grids. These cables often feature polyimide or metal coatings, armored stainless steel tubes, and fast thermal response. Prices for these cables vary significantly based on specifications such as length, coating type, and armoring. While exact prices are not always listed online, industrial-grade cables from suppliers like AP Sensing or DirectIndustry can range from hundreds to thousands of euros per meter, depending on the configuration and application requirements.

Key Features Affecting Price

- Cable Type:** Metal-free flexible cables are generally less expensive than armored stainless steel cables.
- Temperature Range:** Cables designed for cryogenic or high-temperature environments cost more.
- Length and Configuration:** Longer cables or multi-sensor threads increase the price.
- Application:** Specialized DTS or DAS systems for real-time monitoring in industrial settings require higher-grade cables and integration, raising costs.

Where to Buy in Malta

- Klikk Computers Malta – Consumer smart temperature sensor cables like the Shelly DS18B20.
- Skroutz.mt – Offers a variety of optical cables, mainly for audio/consumer use, which may be adapted for basic sensing projects.
- D...

OS3100 DTS Cable | Temperature Sensing Fiber Cable | FIBERPRO

Its rugged SUS-type cable jacket has high resilience to freezing temperatures, high-humidity, is explosion-proof, and has a product life span of up to 30 years. OS3100 DTS cable with -40 to +90°C

Fiber Optic Sensor Cables for Advanced Monitoring | AP Sensing

To enable rapid fire detection, fiber optic cables should be compact (around 4 mm in diameter or less) and lightweight (typically below 35 kg/km), while still providing strong mechanical protection for the

Malta Sensing Cable Market (2025-2031) | Value & Segmentation

Market Forecast By Detection Medium (Liquid, Gas), By Mode (Single-mode Fiber, Multi-mode Fiber), By Application (Leak Detection, Power Cable Monitoring, Heat Sensing, Temperature Sensing,

DiTemp Medium Temperature Sensing Cable

Reliable and versatile cable for easy installation. Small size and fast reaction to temperature changes. The Medium Temperature Sensing cable is a unique sensor for the evaluation of distributed
