

How much does a tray-type cable tray cost in South Sudan

AI Overview

Tray-type cable trays in South Sudan typically cost between \$5 and \$30 per meter, depending on material, type, and finish. Price Range by Material Steel trays: \$5–\$25 per meter, commonly used for general-purpose installations due to their strength and affordability. Aluminum trays: \$6–\$30 per meter, lightweight and corrosion-resistant, suitable for humid or industrial environments. Stainless steel trays: Higher-end option, offering maximum durability and corrosion resistance, often used in demanding industrial or chemical settings. Plastic trays: Budget-friendly, typically lower than metal trays, but not suitable for heavy loads or high-temperature environments. Factors Affecting Cost Tray type: Ladder trays are more expensive than perforated or solid-bottom trays due to higher load capacity. Coating and finish: Hot-dip galvanized, powder-coated, or pre-galvanized finishes increase durability but also raise the price. Length and bulk orders: Standard lengths are usually 2–2.5 meters; buying in bulk can reduce per-meter cost. Shipping and local availability: Importing trays to South Sudan may add significant shipping costs, which can vary depending on supplier and logistics. Installation costs: Labor, supports, brackets, and connectors can add to the total project cost, with skilled labor rates varying locally. Cost-Saving Tips Consider perforated or plastic trays for lighter loads to reduce costs. Bulk purchasing or negotiating long-term supply contracts can lower unit prices. Compare local suppliers like Shopit in South Sudan for competitive pricing and faster delivery. In summary, for a standard tray-type cable tray in South Sudan, expect \$5–\$30 per meter, with the final cost influenced by material, type, coating, and shipping considerations.
