

How much does fireproof cable tray board cost

AI Overview

Fireproof cable tray prices vary widely depending on type, material, size, and fire rating, typically ranging from \$20 to \$200 per meter.

Price Ranges by Type and Material

- Ladder Trays:** Common for heavy-duty applications; made from steel, aluminum, or fiberglass. Prices generally range from \$50 to \$150 per meter depending on material and load capacity.
- Solid-Bottom Trays:** Provide full protection for sensitive cables; typically cost \$60 to \$180 per meter due to additional material and fireproof coatings.
- Trough Trays:** Offer moderate protection and ventilation; prices are usually \$40 to \$120 per meter.
- Wire Mesh Trays:** Lightweight and ventilated; suitable for heat-sensitive environments, costing around \$20 to \$80 per meter.

Factors Affecting Price

- Material:** Steel trays with fire-resistant coatings are more expensive than aluminum or fiberglass options.
- Fire Rating:** Trays are rated for 30, 60, 90, or 120 minutes of fire resistance. Higher ratings increase cost due to thicker coatings or additional fireproof barriers.
- Accessories:** Bends, tees, risers, and fireproof wraps or intumescent pads add to the overall price.

Application Environment: Trays for high-risk areas like data centers, hospitals, or industrial plants may require specialized coatings or reinforced designs, increasing cost.

Typical Applications

- Emergency Escape Routes:** Ensures lighting and exit sign cables remain operational during fire.
- Life Safety Systems:** Fire alarms, smoke control, and public address systems.
- Critical Infrastructure:** Data centers, control rooms, and hospitals.
- High-Risk Industrial Areas:** Chemical plants or areas prone to fire.

Purchasing Tips

- Check for fire rating compliance with local building codes.
- Consider material durability against moisture and corrosion.
- Factor in installation accessories like fireproof wraps or intumescent pads.
- Compare suppliers for bulk pricing and deliver...
