

How to fix the hangers of the mesh cable tray

Overview

The wire mesh trays are fixed to the brackets with 2 hook bolts GRSM 6. For ceiling installations, the HU 5050 or HU 6040 overhead hangers are available, or for greater flexibility on site, corresponding U-profiles and head plates. Regarding cable management, the fixing and mounting you choose for your cable trays can make or break your setup. Whether you're managing voice, data, or electrical cables, ensuring your trays are installed correctly is essential to keeping everything neat, secure, and functional. It contains the wires in a secure, tidy, and elevated state. To avoid the weight hanging or structural collapse, the weight should be supported in a balanced manner with the spacing of support normally 1. At temperatures below - 20 °C, the material will be any other purpose than. The MTC 54 wire mesh tray as well as the fittings can also be electrically and mechanically connected to each other when used in the circuit integrity maintenance with the help of the integrated connectors without further accessories. E30, E60 and E90 classified systems are available with the.
