

How to insert the optical cable

AI Overview

To insert an optical cable, follow these steps:

- Identify the Optical Port:** Locate the optical output port on your device (TV, soundbar, etc.)
- Connect the Cable:** Insert one end of the optical cable into the optical output port. Ensure it is aligned correctly; it should snap into place easily.
- Connect to the Other Device:** Insert the other end of the optical cable into the optical input port of the receiving device (like a soundbar or amplifier)
- Check Connections:** Ensure both ends are securely connected and that the devices are powered on.

Following these steps will help you successfully connect your optical cable for audio transmission.
