

Huawei Core Switch 24 Ports Electrical

Overview

The Huawei S6700-24-EI is a 24-port switch that supports both GE SFP and 10GE SFP+ ports. It delivers high-performance switching with quality of service and security capabilities. The switch is suitable for use as an access switch in large data centers or as a core switch in campus. CloudEngine S5736-S Series Switches are standard multi-GE access switches for the Wi-Fi 6 era, featuring 24 downlink ports, four 10 GE SFP+ uplink ports, and one extended slot. Powered by Huawei's unified Versatile Routing Platform (VRP), the switches offer a range of capabilities, including. There are several S5736-S24UM4XC bundles, which consist of different power supplies and ports, as listed in Table 4-1481. You can purchase an RTU license to increase the port rate to 2.5 Gbit/s, 5 Gbit/s, or 10 Gbit/s. It typically offers 24 RJ-45 ports (10/100/1000BASE-T), plus optional uplink slots (SFP or SFP+), PoE support, and web- or CLI-based management.

S6700-24-EI Datasheet Overview

The S6700 is ideal for use as access switches in large-scale data centers and core switches in campus networks. S6700 Series switches are available in 24-port and 48-port S6700-EI models, for resilient

Huawei Ethernet Switch & Network Switches Solutions

Thunder link offers various models of Huawei Ethernet switches and network switches, including the S5720, S6720, S6730, CE6800 and CE12800, designed

S5700 Series Switches Hardware Description (V200)

The switch is a PoE switch and supports two power module slots, each of which can have a 1000 W PoE or 600 W PoE power module installed. Pluggable AC and DC PoE power modules can be used
