

Huawei Core Switch 8-Port Home Use

Overview

The Huawei S110-8P2ST is an 8-port Gigabit unmanaged PoE switch, featuring 8 x 10/100/1000BASE-T PoE+ downlink ports, 1 GE non-PoE uplink port, and 1 GE SFP port. Huawei's comprehensive portfolio of products and solutions enables you to realize smooth digital transformation and rapid growth of virtualization, Big Data, and cloud services. Huawei switches already help customers achieve success in industries such as finance, Internet, retail, education. The built-in power module can provide 124 W PoE power, which ensures full PoE power on 8 ports in compliance with 802.3af or on 4 ports in compliance with 802. The switch has a built-in fan for forced air cooling. Air flows in from the left side and front panel, and exhausts from the right. Discover Huawei 8x 8-port switches with high-speed connectivity and advanced network management for seamless business performance.
