

Huawei Layer 3 Core Switch Pricing

AI Overview

Huawei Layer 3 core switches typically range from \$3,000 to over \$20,000 depending on model, port density, and configuration. Pricing Overview Huawei Layer 3 switches are available in modular and fixed-configuration models, with pricing influenced by port count, uplink speed, and advanced features such as VRP routing, VXLAN virtualization, and high-availability options. For example: Huawei S6730-H48X6C: A high-density 10 GE switch with 48x10GE SFP+ and 6x40GE QSFP+ uplinks, designed for campus core or aggregation layers. Pricing typically starts around \$10,000–\$15,000, but exact quotes require contacting vendors. CloudEngine S5731-S series: Standard gigabit access switches with Layer 3 capabilities, 10 GE uplinks, and iStack support. These are more cost-effective, generally ranging from \$3,000–\$6,000 depending on configuration. Other fixed or modular Layer 3 switches: Smaller 24-port or 48-port models for SMB or enterprise aggregation can range from \$3,000 to \$8,000, while high-end modular switches for service providers or large data centers can exceed \$20,000. Factors Affecting Cost Port Density and Speed: Higher port counts (10G, 25G, 40G, 100G) increase cost. Modular vs Fixed: Modular switches with expansion slots for future growth are more expensive than fixed-configuration models. Advanced Features: Support for VXLAN, Super Virtual Fabric (SVF), IPv6, and high-availability redundancy adds to the price. Deployment Environment: Ruggedized or industrial models designed for harsh conditions may carry a premium. Vendor and Region: Prices vary by distributor, region, and whether additional services like support contracts or software licenses are included. Purchasing Guidance Request Quotes: For accurate pricing, contact authorized Huawei distributors or resellers. Plan for Growth: Modular switches allow future expansion, which can reduce long-term costs. Consider Total Cost of Ownership: Include licensing, maintenance, and power/cooling requirements in budgeting. In summary, Huawei Layer 3 core switch...
