

Huawei Switch with 24 Ethernet Ports and 4 Fiber Ports

Overview

CloudEngine S5736-S Series Switches are standard multi-GE access switches for the Wi-Fi 6 era, featuring 24 downlink ports, four 10 GE SFP+ uplink ports, and one extended slot. Powered by Huawei's unified Versatile Routing Platform (VRP), the switches offer a range of capabilities, including. Huawei's comprehensive portfolio of products and solutions enables you to realize smooth digital transformation and rapid growth of virtualization, Big Data, and cloud services. Huawei switches already help customers achieve success in industries such as finance, Internet, retail, education. S5735-S24P4X is the Huawei S5735-S switch with 24 x 10/100/1000BASE-T ports, 4 x 10 GE SFP+ ports, and PoE+. They are designed for. The Huawei S220-24P4X is a Layer 3 access switch designed for campus network access and aggregation. Built on next-generation, high-performance hardware and powered by Huawei's Versatile Routing Platform (VRP), CloudEngine in total. Equipped with 24*10/100/1000BASE-T ports, this switch provides reliable and fast Ethernet connectivity for multiple devices, making.
