

IDC Big Data Center Racks

AI Overview

IDC Big Data Center Racks are specialized, high-density, and secure enclosures designed to house servers, storage, and networking equipment, often integrating power, cooling, and monitoring systems for enterprise-scale operations.

Overview of IDC Racks

Internet Data Centers (IDCs) provide a temperature-controlled, secure environment for servers, storage devices, and networking equipment, enabling enterprises and cloud providers to host large-scale IT infrastructure reliably. Modern IDC racks are designed to support high-density computing, including AI and HPC workloads, with features such as redundant power, advanced cooling, and fire suppression systems.

Types of Racks and Solutions

Traditional Colocation Racks

Standard 42U or 48U racks for enterprise servers. Provide centralized power distribution, cooling, and network connectivity. Suitable for large-scale data centers with multiple racks and high uptime requirements.

All-in-One Micro Data Centers (iDCmini)

Compact, turnkey solutions integrating UPS, fire suppression, and monitoring in a single rack. Examples include iDCmini Duo, iDCnano, iDCmini Edge-26, and iDCmini Air-42. Ideal for organizations with limited space or requiring rapid deployment, as a single cabinet can replicate the functionality of a traditional server room. Dimensions can be as small as 800mm x 1000mm x 1800mm, making them portable and easy to relocate.

High-Density Racks for AI and HPC

Support up to 53kW per rack, suitable for high-performance computing and AI applications. Include advanced power distribution units (iPDU) and automatic load transfer to ensure uninterrupted operation. Often integrated with Data Center Infrastructure Management (DCIM) platforms for real-time monitoring and optimization.

Key Features

Power and UPS Integration: Racks include uninterruptible power supplies ranging from 1kVA to 800kVA, ensuring continuous operation.

Cooling and Fire Suppression: Built-in systems maintain optimal temperature and protect equipment...
