Free. If Customer promptly notifies GE HealthCare of its claim during the warranty and makes the part or Specialty Component available, GE HealthCare will (at its option and subject to the foregoing terms) repair, adjust or replace (with new or refurbished/repared) the non-conforming part or Specialty. A distribution box, or DB box, is a circuit breaker enclosure. Whether it's a home, office, or factory, the DB box makes sure power. A distribution box is a low-voltage electrical enclosure that receives incoming power and distributes it safely to multiple outgoing circuits through protective and switching devices such as MCBs, RCDs, RCBOs, fuses, isolators, busbars, neutral bars, earth bars, and surge protective devices. The enclosure series EJB forms the optimal basis for the application-specific configuration of terminal boxes, control stations as well as control and distribution panels. They are available in many sizes, a wide range.
