

IP56 distribution box with 4 circuits

Overview

The 56CB4N is a rugged, weatherproof distribution enclosure designed for surface-mounted electrical installations in harsh environments. Part of the renowned 56 Series, this 4-way box is specifically engineered to house miniature circuit breakers (MCBs), RCDs, or solar DC breakers. The Ingress Protection (IP) rating defines the level of protection against solid objects (like dust) and liquids (like water). This guide. Small, robust Ex e enclosure for distributing electrical energy IP 66 degree of protection Equipped with 4 mantle terminals and 1 PE connection Available with plastic semi-glands or cable glands Functional Description. Enclosure material: Stainless steel 1. Recycled cardboard content is minimum 70% (50% in US). The calculation of the recyclability potential relies on the scenario "France - parts are shredded" of TR62635 considering all parts in the product and materials. Surface mounting junction box with undrilled walls, blind cover closed with stainless steel screws, RAL 7035 grey. Bison ProFab manufactures high-quality IP56 electrical enclosures.
