

Industrial-grade switch with 8 optical ports

Overview

L2+ managed industrial PoE fiber switch with 8*10/100/1000M RJ45 ports and 2*100/1000M uplink SFP fiber ports. It can support dual DC redundant power input (Phoenix terminal connection) and DIN rail mounting. 1 3af/at standards with 8 PoE ports. Designed for simplified management, it suits diverse industrial needs, excelling in high-density PoE. The Comxus 8 Port Industrial-Grade Managed PoE Network Switch with 2 SFP Ports is a robust and intelligent networking solution designed for modern industrial environments where reliability, security, and continuous uptime are critical. The features provided by the 852-1102 Switch speak for themselves: a high data throughput of 1 Gbit as well as suitability for use in extreme ambient conditions ensure a large. 8x 1000Base TX RJ45 ports and 2x 1000Base-X optical ports. The products comply with FCC, CE and ROHS standards. IND-G082GS has a working temperature of - 40°C ~ 85°C, has super firmness, can adapt to various harsh environments, and can also be conveniently placed in a compact control box.
