

Installation price of small distribution box

AI Overview

The installation price of a small residential distribution box typically ranges from \$1,300 to \$1,800, depending on specifications and labor requirements. Purchase Cost Small distribution boxes for residential or light commercial use generally cost between \$10 and \$150 for basic plastic or metal units, while higher-quality or premium models with advanced safety features, surge protection, or residual current devices can cost more. Prices vary based on:

- Material:** Plastic boxes are cheaper, metal or thermoplastic boxes are more durable and weather-resistant.
- Amperage and circuits:** Common ratings range from 32A to 125A, with more circuits increasing the cost.
- Mounting type:** Surface-mounted units are usually less expensive than flush-mounted options.
- Safety and compliance features:** IP ratings, earthing systems, and certifications (UL, CE, CCC) can affect pricing.

Installation Cost Professional installation for a standard residential small distribution box typically costs \$1,300 to \$1,800, which includes labor, wiring, and basic setup. Factors that can increase installation costs include:

- Complex retrofits:** Older buildings may require additional work behind walls, adding 15–20% to the total cost.
- Permits and inspections:** Local regulations may require permits, which can add to the overall expense.
- Advanced features:** Smart distribution boxes with monitoring, remote control, or energy management capabilities can double the upfront cost but offer long-term savings.

Summary For a small residential distribution box, you can expect:

- Basic unit:** \$10–\$150
- Professional installation:** \$1,300–\$1,800
- Premium or smart units:** Higher upfront cost, potentially \$2,000+ including installation

Choosing the right box involves balancing current needs, future expansion, and safety requirements. Investing in a quality unit with proper installation ensures long-term reliability, compliance with electrical codes, and reduced maintenance costs.
