

# Integrated Energy Cabinet for Smart Buildings NEMA4X

## Overview

Individual stainless steel enclosure with stable enclosure body, two integrated mounting levels, screw-fastened rear panel and door. Fully compatible with the VX25 baying system. Increases efficiency as side panels do not have to be. Easy installation and easy operation, manage your energy distribution between renewables, AC grid, and battery. Our Aimbridge Energy DC Microgrid packages provide power system capacities ranging from 5kW to 20kW and the ability to create multiple power cabinet configurations. Our intelligent Energy. The Integrated Energy Storage Power Cabinet is a compact, all-in-one solution that combines power distribution, energy storage, and intelligent control systems within a weatherproof enclosure. Designed for use in solar power systems, telecom base stations, and off-grid sites, the cabinet supports. At Solarcraft, we power the latest technologies for our customers, engineering inventive solutions for critical and essential remotely located applications. Battery enclosures/cabinets that provide storage, security and reliable, warrantied long term sustainability.
