

Israeli Power Distribution Automation Manufacturer

AI Overview

Key Israeli manufacturers in power distribution automation include Eshed Automation, Contel, Ardan Katzenstein Engineering, Electro Distribution, and SolarEdge, each offering specialized solutions for electrical panels, smart grids, and industrial automation.

Leading Companies and Capabilities

Eshed Automation LTD
Founded in 1992, Eshed Automation specializes in electromechanical assemblies, including control panels, power distribution units, and electrical cabinets. They provide full turn-key manufacturing, ODM design services, and off-the-shelf products such as EMC/EMI line filters and switch mode power supplies, serving industries from semiconductors to modern dairy farms.

Contel
Contel delivers industrial automation and digital transformation solutions, including electrical and control panels for power plants and infrastructure projects. Their offerings include MCC panels, central electricity cabinets, smart starters with Ethernet/IP communication, and software systems for monitoring and controlling power station operations. Contel also provides solutions for renewable energy and hybrid microgrid systems through their Energynie™ platform.

Ardan Katzenstein Engineering Ltd. (AKE)
With over fifty years of experience, AKE designs, manufactures, installs, and maintains high, medium, and low-voltage switchgear. They specialize in automation, switching, and power distribution solutions, employing a team of 200 skilled engineers and technicians to deliver comprehensive electrical panel and control system solutions.

Electro Distribution
Electro Distribution focuses on electrical distribution solutions, including MV switchgear, MV power transformers, and low-voltage distribution systems. They provide engineering services and collaborate with specialist suppliers to deliver IEC61439-compliant panels and customized solutions for industrial and residential a...
