

Jordan Waterproof Distribution Box Model Specifications

AI Overview

Jordan Waterproof Distribution Boxes are rugged, IP65-IP67 rated enclosures made from durable ABS or PC plastics, suitable for outdoor and industrial electrical applications.

Key Features

- Material:** High-quality ABS or polycarbonate (PC) plastics for impact resistance, UV stability, and long-term durability.
- Ingress Protection (IP Rating):** Models typically range from IP65 to IP67, providing protection against dust, rain, and temporary water immersion.
- Series and Models:** Common series include AT and HT series for compact or larger internal layouts, and EKDB10 series offering 4-39 ways with single, double, or triple layers for industrial, commercial, and photovoltaic applications.
- Dimensions:** Example from the Twidex IP67 Jordan box: 8"x6"x4" outer size, providing ample internal space for wiring, terminals, and small modules. EKDB10 series dimensions vary depending on the number of ways and layers.
- Mounting Options:** Wall-mounted or DIN rail compatible, depending on the model, allowing flexible installation in tight or open spaces.
- Standards Compliance:** Meets IEC 60529 for IP ratings, IEC 62262 for mechanical impact, and IEC 60695-2-10 for flammability.
- Environmental Suitability:** UV-stabilized housings for sun-exposed installations, resistant to dust, rain, and harsh outdoor conditions.
- Customization:** Many models allow pre-assembled solutions, custom sizing, and bulk orders, with compression gaskets maintaining sealing after repeated openings.

Applications

- Industrial and Commercial Electrical Systems:** Protects terminals, splices, and miniature modules.
- Solar and Photovoltaic Systems:** EKDB10 and similar models are suitable for PV installations.
- Outdoor and Harsh Environments:** IP65-IP67 protection ensures reliability in rain, dust, and UV exposure.
- DIY and Electronics Projects:** Twidex IP67 boxes are suitable for Arduino, power supplies, and small-scal...
