

Malta ladder cable tray price range

AI Overview

Cable ladder trays in Malta typically range from €25 to €150 per meter, depending on material, size, and load capacity. Price Overview Cable ladder trays are available in aluminum, steel, and stainless steel, with prices varying according to material quality and structural specifications. For standard installations: Aluminum trays: €25–€60 per meter, lightweight and corrosion-resistant, suitable for indoor and moderate outdoor use. Galvanized steel trays: €40–€100 per meter, stronger and more durable, ideal for heavy-duty industrial applications. Stainless steel trays: €80–€150 per meter, highly resistant to corrosion, used in harsh environments or chemical plants. Accessories such as bends, tees, reducers, and mounting brackets can add 10–30% to the total cost of the system. Factors Affecting Price Tray Width and Height: Wider or taller trays that support more cables cost more. Load Capacity: Trays designed for heavy cables or long spans require thicker rungs and stronger side rails. Finish and Coating: Powder-coated or hot-dip galvanized trays are more expensive than plain steel. Supplier and Brand: Local suppliers in Malta, such as XOL Malta and FBP Malta, may have different pricing based on stock and shipping costs (). Practical Advice For small office or residential projects, aluminum trays are cost-effective and easy to install. For industrial or outdoor installations, galvanized or stainless steel trays provide long-term durability. Always consider accessories and installation costs when budgeting, as these can significantly impact the total expenditure. By comparing suppliers and considering material and load requirements, you can select a cable ladder tray system that balances cost, durability, and functionality for your project in Malta.
