

Manufacturer of optical fiber cable materials for communication in the Democratic Republic of Congo

AI Overview

Key manufacturers and providers of optical fiber cable materials in the DRC include local company Espoir Multi Services, international contractor Taihan Fiberoptics, and Chinese firms Genew Technologies and Zhongshi Wosen.

Local Provider: Espoir Multi Services (EMS) Espoir Multi Services, based in Kinshasa, is a Congolese company established in 2021. EMS specializes in telecommunications infrastructure, including fiber optics and mobile networks. The company provides expertise in deploying both fixed and mobile telecom networks, making it a key local player in fiber optic cable projects within the DRC.

International Contractor: Taihan Fiberoptics Taihan Fiberoptics has been actively involved in building and managing fiber optic networks in the DRC, including a 620 km fiber optic cable project in western Congo. They provide end-to-end optical communication solutions, covering design, engineering, construction, and maintenance. Taihan has executed major projects under government supervision and World Bank funding, contributing to the development of the national backbone network connecting cities like Kinshasa, Lubumbashi, and Goma.

Chinese Companies: Genew Technologies and Zhongshi Wosen Genew Technologies, headquartered in Shenzhen, China, specializes in end-to-end communication solutions and telecommunications infrastructure. Alongside Zhongshi Wosen, these companies have signed memoranda of understanding with the DRC government to support the expansion of the fiber optic network. Both firms have experience in African markets such as Angola and Mauritania and are positioned to supply fiber optic cables and related materials for large-scale network deployment i...
