

Manufacturer s 4-core optical cable terminal box

Overview

The 4-core fiber termination box provides a stable, protective joint between optical cable and distribution pigtails at the end of fiber cables. It is typically used in cabling work area subsystems. Suitable for 4 adapters SC configuration and splitter Wet-proof, water-proof, dust-proof, anti-aging design for outdoor uses. waterproof IP65. The ATB-D4-SC FTTH 4 Core DIN Rail Terminal is a versatile fiber optic terminal designed for Fiber to the Home (FTTH) applications. It has compact wall mount type design. It can complete the access and port output of fiber optic, provide devices for fixing, stripping, splicing, and protection of fiber optic, and allow for the storage of a small amount of redundant fiber. The HTB8008 4SC-4SP Terminal Box is a robust and space-saving solution for terminating up to 4 optical fibers.
