

Mauritius Standard Electrical Distribution Box

AI Overview

In Mauritius, standard electrical distribution boxes are modular cabinets designed for residential, commercial, and industrial installations, with options ranging from 4 to 72 modules per cabinet.

Types and Brands Legrand Practibox S is a widely used surface-mount distribution cabinet in Mauritius, available in configurations from 4 to 72 modules, with 13 or 18 modules per row for residential and small commercial buildings. These cabinets feature earth terminal blocks, smoked doors, and a streamlined design suitable for indoor installations. Other Legrand options include Drivia, XL³, XL³ S, and Plexo³, offering both surface and flush-mounting solutions. Easy9 enclosures are plastic, surface-mounted modular boxes with 18 modules per row, compatible with all types of modular switchgear, and are intended for indoor use.

Local Suppliers Electrical.mu offers a range of distribution boxes and enclosures for breakers, including Practibox S and Easy9, with warranties typically around 2 years. CMH Mauritius provides high-quality electrical solutions, including distribution boards, power cables, earthing systems, and home automation accessories.

Standards and Compliance Distribution boxes in Mauritius must comply with Mauritian electrical standards and the Electricity Act 2005, ensuring safety, proper earthing, and adherence to local installation regulations. The Mauritius Standards Bureau maintains a catalogue of standards for electrical installations, which includes specifications for distribution boards, module sizes, and safety requirements.

Key Features to Consider Module capacity: Choose based on the number of circuits; Practibox S ranges from 4 to 72 modules. Mounting type: Surface-mounted or flush-mounted depending on installation location. Safety features: Earth terminal blocks, smoke-resistant doors, and compliance with local standards. Indoor vs outdoor: Most...
