

Monaco Fiber Optic Cable Coverage

AI Overview

Monaco has completed a full fiber optic network, connecting all homes and businesses with high-speed internet up to 10 Gbps. Fiber Optic Rollout Monaco Telecom, the nation's telecommunications operator, completed the installation of 210 kilometres of fiber optic cables across the Principality, achieving 100% fiber coverage by 2023 and retiring copper DSL connections. The rollout involved both horizontal deployment across streets and vertical deployment within buildings, gradually connecting every eligible apartment and business. By the end of the deployment, all households and commercial premises have access to fiber, ensuring a stable and high-speed network. Residential Services Residents can access fiber speeds ranging from 100 Mbps (€39.99/month) to 1 Gbps (€59.99/month) and up to 10 Gbps (€99.99/month), with installation included and optional bundles for TV and landline services. The fiber network provides optimized WiFi, reducing connectivity issues common in older buildings with thick walls or poorly placed routers. The network is designed to support teleworking, streaming, and other high-bandwidth applications. Business Connectivity For businesses, Monaco offers Dedicated Fiber or FTTO (Fiber To The Office), providing a direct optical connection with guaranteed bandwidth. This ensures high-speed, reliable data exchange suitable for video conferencing, cloud services, and large file transfers. Businesses benefit from symmetric upload speeds up to 2 Gbps, static IPs, cloud storage, and service level agreements for reliability. Monaco Telecom manages installation, network setup, testing, and ongoing monitoring to meet specific business requirements. Technical Advantages Fiber optic technology in Monaco uses glass strands as thin as a human hair, offering speeds up to 160 times faster than ADSL and maintaining signal strength over long distances. Unlike copper lines, fiber is resistant to weather disruptions and provides a more stable connection. The compact size of Monaco (2...
